PROFILE

Undergraduate student in Computer Science at EPITA with passion for programming since the age of 12.

I have started programming on small plugins for video games (Minecraft) and then pivoted to Web development as a Full-stack developer. I usually work on my own and create things for my needs, but I'm starting to propose my skills to people that need them. My generosity encouraged me to participate in volunteering actions for a coding club in Paris (CoderDojo Paris) where I'm mentoring young teenagers in programming, and also for the French Ice Hockey Federation to help setup events.

Currently looking for opportunities to learn new things, gain some professional experience and work on real-world projects.

KEY ACHIEVEMENTS

Avenir Platform

- Working with a client to create custom-made platform
- Deployment on a production server with pre-production testing phase
- More than 5k accounts that are connecting in a short period of time (1-2 weeks)
- API communication between the frontend (React.JS) and the backend (Symfony)
- Currently selling to other private high-schools

University Video Game Project

- Worked on a team project to create a video as a semester project. We had to respect deadlines and plan our work.
- First time working with other people (group of 4), using Git branches, PR, merge, ...
- Intermediate project presentation to show the progress and the improvement expectations

PASSION AND INTERESTS

- Aviation (Simulation)
- New Technology (Electric Cars)
- Networking & System Administration (BGP)
- Sports, especially Ice Hockey

JOURNEY

National Referee & Staff Volunteer

FFHG - French Ice Hockey Federation

📅 Since February 2020

Programming Mentor

CoderDojo Paris

📅 Since Mars 2015

Assistant of Communication Team

EPITA

📅 Since October 2020

SKILLS

Web Backend (PHP / Symfony / NodeJS)

Frontend Integration (React.JS / TailwindCSS)

Git Versioning

Docker

Linux

Scripts (Python / Regex)

Software (Java / C#)

LANGUAGES

🇫🇷 French

🇷🇺 Russian

🇬🇧 English

EDUCATION

Computer Science

EPITA

📅 Sep 2020 – June 2025

Scientific baccalaureate

Lycée Sainte Marie d'Antony

📅 Sep 2018 – June 2020
